PRICING & LOGISTICS FRAMEWORK

Srijan: Offline Gigs & Travel Matrix

> **Note on Unit Economics:** Total Client Cost = Base Service Price + Zero-Commission Travel Fee. Srijan applies its 20% platform commission strictly to the Base Service Price. The Travel Fee is calculated on round-trip distance and passed 100% directly to the creator to eliminate out-of-pocket logistics friction.

1. The Travel Cost Layer (0% Platform Commission)

Calculated dynamically at checkout based on the distance between the Creator's registered geo-location and the Client's requested venue. Rates account for round-trip transit (e.g., 5 KM radius = 10 KM total travel) utilizing standard two-wheeler/cab aggregate rates in India.

Radius (One-Way)	Total Distance (Round-Trip)	Logistics Vehicle Baseline	Flat Travel Fee (To Creator)
Up to 5 KM	10 KM	Bike / Auto / Local	₹ 150
5.1 KM - 10 KM	20 KM	Bike / Auto / Cab	₹ 250
10.1 KM - 15 KM	30 KM	Cab / Auto	₹ 400
15.1 KM - 20 KM	40 KM	Cab	₹ 550
20.1 KM - 25 KM	50 KM	Cab	₹ 700

2. Offline Core Deliverables & Base Pricing

The following are standardized base rates for physical, on-site deployments. Srijan deducts its 20% commission exclusively from these amounts.
